

## Florida Fishing Academy

### What's in your Environment? K-2

#### What is an Environment?

Environment: everything around us.

Your environment may include your home and school.

A fish's environment may be the ocean or a pond.

Today we are going to use our 5 senses to explore our environment:

- Touch
- Taste
- Hearing
- Seeing
- Smell

We would like you to find a spot in your environment- inside or outside.

#### What is around you?

Can you touch anything?

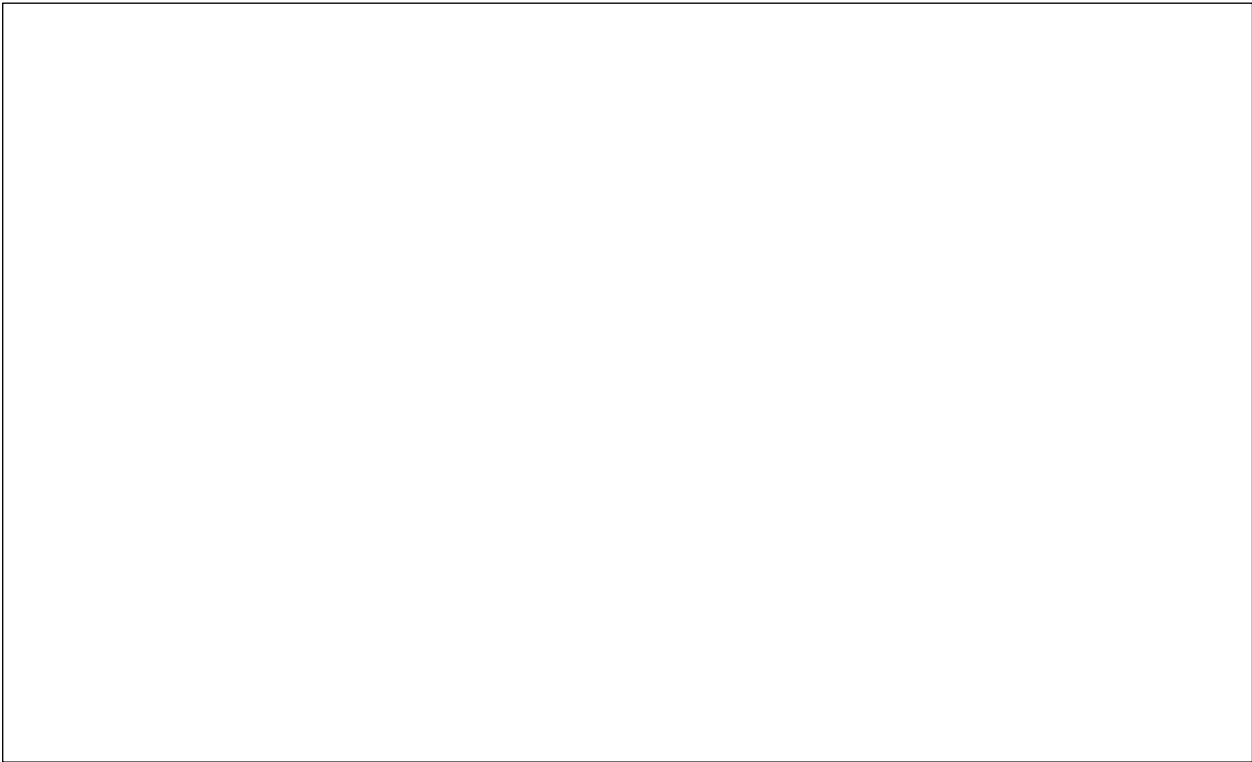

Can you taste anything?

Do you hear anything?

What do you see around you?

Do you smell anything? (Inside: Laundry, Outside: Fresh cut grass)

Draw a picture of your environment and share it with us!
